MANAGEMENT DISCUSSION AND ANALYSIS REPORT

As the ongoing pandemic takes its toll on the global economy, East Asia's growth outlook has also deteriorated significantly. A rebound in growth to 6.8 per cent is expected in 2021, but this is highly contingent on the successful containment of the virus this year. For many East Asian economies, exports are likely to contract substantially, reflecting supply chain disruptions and a significant slowdown in global demand. Across the region, widespread travel restrictions, enforced business closures, and quarantine measures will suppress consumer spending and investment activity. The gradual lifting of containment measures is expected to ease production disruptions while releasing some pent-up consumer demand. However, the momentum of the recovery will be weighed down by the slump in international trade, weaker domestic labour market conditions, and the deterioration in corporate balance sheets.

The World GDP growth is now expected to go down from 2.7 per cent in 2019 to 5.2 percent contraction in 2020, reflecting a downward revision. COVID-19 has triggered the deepest global recession in decades. While the ultimate outcome is still uncertain, the pandemic will result in contractions across the vast majority of emerging market and developing economies. It will also do lasting damage to labor productivity and potential output. COVID-19 has delivered an enormous global shock, leading to steep recessions in many countries. Per capita incomes in most emerging and developing economies will shrink this year.

The global steel demand will contract by 6.4%, dropping to 1,654 Mt due to the COVID-19 crisis. In 2021 steel demand is expected to recover to 1,717 Mt, an increase of 3.8 % over 2020. In developed economies, steel demand is expected to decline by 17.1% in 2020. Although the downturn is led by consumer and service sectors, massive dislocations in spending, labour markets, and confidence are fuelling broad-based declines in steel-using sectors. A spillover from substantial job losses and bankruptcies, weak confidence and continued social distancing measures suggest only a partial recovery of 7.8% in 2021. The wide range of continuing infrastructure projects is likely to support growth in steel demand. Steel demand in the developing economies excluding China is expected to fall by 11.6% in 2020, but will see a substantial recovery of 9.2% in 2021. India's steel demand is likely to face a sharp decline of 18 per cent in 2020.

The construction industry in some countries suffered an abrupt halt of projects due to supply chain disruptions and a shortage of workers during the lockdown period. In the construction sector, social distancing measures seem to be more challenging to put in place, hindering post lockdown resumption of work. Prospects of new

construction projects have also worsened due to the deteriorated balance sheets of consumers and businesses. The automotive industry is the biggest victim of the COVID-19 crisis among the steel-using sectors. In 2020 the automotive industry is expected to experience a loss of sales of 20% on top of the losses in the past two years.

India has implemented the most stringent nationwide lockdown measures in the world, bringing industrial operations to a standstill. Construction activity was halted entirely at the end of March, and recovery is expected to remain slow due to the slow return of labour. Supply chain disruption coupled with slower demand recovery will hit the automotive sector hard. The machinery sector is expected to see a continued decline, with weak private investment and supply chain disruption. Supported by government stimulus, recovery in construction will be led by infrastructure investment such as railways. The government's support to rural income, as well as expected consumption related to the upcoming festive season, will help a substantial recovery of demand for consumption-driven manufacturing goods in the second half. As a result, India is likely to face an 18.0% decline in steel demand in 2020, which will rebound by 15.0% in 2021.

The Union Cabinet has given its approval for **National Steel Policy (NSP) 2017** on 08.05.2017. The new Steel Policy enshrines the long term vision of the Government to give impetus to the steel sector. It seeks to enhance domestic steel consumption and ensure high quality steel production and create a technologically advanced and globally competitive steel industry. The policy projects crude steel capacity of 300 million tonnes (MT), production of 255 MT and seeks to increase per capita steel consumption to the level of 160 Kgs by 2030 from existing level of around 60 Kg and major segments of consumptions are infrastructure, automobiles and housing sectors. The policy also envisages to domestically meet the entire demand of high grade automotive steel, electrical steel, special steels and alloys for strategic applications and increase domestic availability of washed coking coal so as to reduce import dependence on coking coal from about 85% to around 65% by 2030.

Presently your Company is engaged in running an Engineering work-shop which performs various jobs which are precise, consistent and of high quality and it is working towards enhancing its core business of milling, drilling, turning and sawing. Another major revenue stream of your company is being derived by leasing its surplus industrial land at Parwada, Visakapatnam to its associate company.

The Company's factory at Malkapuram was shut down since 2012 for non-renewal of Lease by Visakhapatnam Port Trust (VPT) and the matter has been sub-judice with the High Court at Vijayawada, Andhra Pradesh. The said matter is in stagnant situation due to COVID-19 pandemic and shifting of High Court, hence no further progress has been made.

The Company has exposure to variety of financial risks i.e. credit risk, liquidity risk and market risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly.

Your Company is looking forward for good business opportunities in variety of machine-shop operations and allied activities. Although your company is earning substantial revenue as lease rent from its surplus land given on lease to its associate Company, M/s. Beekay Steel Industries Ltd. on a long term lease basis, the management is still exploring new business opportunities mainly for maximizing revenue from this land.

In the year under review the Company's turnover has declined due to reduction in the number of orders for machining works and also slowdown in the engineering sector. Your company has earned a profit after tax of Rs. 135.90 Lakhs during the year 2019-20 compared with a profit after tax of Rs.298.15 Lakhs in the previous year 2018-19 mainly due to low capacity utilization of the machine-shop. The machine-shop at Autonagar, Visakapatnam has been set up in the year 2012 for undertaking specialized machining, turning, drilling and sawing jobs on contract basis and the management is trying to diversify the product range to improve its capacity utilization and thereby the bottom-line. Availability of good order book for machining job as well as proper utilization of surplus land is considered as a major threat. All the assets of your Company have been properly insured against expected risks involved.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has put in place a proper and adequate system of internal controls, to ensure the safeguarding of assets and their usage, maintenance of proper records, adequacy and reliability of operational information is commensurate with the size, scale and complexity of its operations. The internal control is supplemented by an extensive audit by internal and external audit teams and periodic review by the top management, Audit Committee and Board of Directors. Internal audit department evaluates legal and compliance issues and

supports in assessment of Internal Control Systems and identification of other important issues as a powerful tool for risk control and governance. The system is designed to adequately ensure the reliability of financial and other records for preparing financial information and other data and for maintaining accountability of our assets. The external auditors have evaluated the system of internal controls in the Company and have reported that the same is adequate and commensurate with the size of the Company and the nature of its business.

The Internal Audit Department monitors and evaluates the efficacy and adequacy of internal control system in the Company, its compliance with operating systems, accounting procedures and policies at all locations of the Company. Significant audit observations and recommendations along with corrective actions thereon are presented to the Audit Committee of the Board.

HUMAN RESOURCES MANAGEMENT AND INDUSTRIAL RELATIONS

Human Resource function in the organization has evolved to embody modern day practices with proper use of technology and automation. This has had a profound impact on the morale and motivation of the employees who are the prime-movers. Learning and development initiative for employees are greatly emphasized to enable all round good performance by individuals. On the whole, industrial relation scenario has been good. Statutory compliances related to labour laws have been followed with due emphasis.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF AKC STEEL INDUSTRIES LIMITED

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of AKC Steel Industries Limited ("the Company"), which comprise the Balance sheet as at March 31 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Emphasis of Matter

We draw attention to Note 32 of the financial statements, as regards to the management evaluation of COVID - 19 impact on the future performance of the Company. Our opinion is not modified in respect of this matter.

Key Audit Matters

We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report and Board's Report including Annexures to Board's Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- o Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate

to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- o Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- o Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- o Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- o Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure I" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE-II TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **AKC Steel Industries Limited** ("the Company") as of 31 March 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

NOTES TO FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2020

1 Company Overview

AKC Steel Industries Limited ("the Company") is a listed company incorporated in India on 20th February, 1957 having its registered office at 2/1A, Sarat Bose Road, Lansdowne Towers, 4 Floor, Kolkata-700020. The Company is principally engaged in the business of trading and machining iron and steels.

The Company's equity shares are listed on the Calcutta Stock Exchange since 18th October, 1973.

The financial statements for the year ended March 31, 2020 were authorised and approved for issue by the Board of Directors on June 29, 2020.

2 Basis of preparation

a) Statement of Compliance

These financial statements are prepared in accordance with the provisions of the Companies Act, 2013 ('Act') (to the extent notified) and Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing standard requires a change in the accounting policy hitherto in use.

b) Functional and presentation currency

The financial statements are presented in Indian Rupees ('Rs') which is Company's presentation currency. The functional currency of the Company is also Indian Rupees ('Rs').

c) Basis of measurement

The financial statements have been prepared on historical cost convention on the accrual basis, except for the following items:

- (i) Certain financial assets and financial liabilities measured at fair value;
- (ii) Employee's defined benefit plan as per actuarial valuation.

Fair value is the price that would be received on the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

d) Use of judgments and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Critical accounting judgements and key sources of estimation uncertainty: Key assumptions

(i) Useful lives of Property, plant and equipment:

The Company uses its technical expertise along with historical and industry trends for determining the economic life of an asset/component of an asset. The useful lives are reviewed by management periodically and revised, if appropriate. In case of a revision, the unamortised depreciable amount is charged over the remaining useful life of the assets.

(ii) Fair value measurement of financial instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using certain valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

(iii) Defined benefit plans:

The cost of the defined benefit plan includes gratuity and the present value of the gratuity obligation are determined using actuarial valuations using projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(iv) Recognition and measurement of provisions and contingencies:

Provision is towards known contractual obligation, litigation cases and pending assessments in respect of taxes, duties and other levies, if any, in respect of which management believes that there are present obligations and the settlement of such obligations are expected to result in outflow of resources, to the extent provided for.

e) Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values.

The management regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.

- **Level 2:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

3 Significant accounting policies

a) Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 – Presentation of Financial Statements based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

b) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Financial Assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Trade receivables are initially measured at transaction price. Regular way purchase and sale of financial assets are accounted for at trade date.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Amortised cost
- Fair value through other comprehensive income (FVTOCI)
- Fair value through profit or loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The effective interest rate (EIR) amortisation is included in finance income in the profit or loss.

Financial assets at FVTOCI

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI).

Financial assets at FVTPL

A financial asset which is not classified in any of the above categories are measured at FVTPL.

Financial assets included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit & Loss.

Other equity investments

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

Derecognition

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109.

ii. Financial liability

Initial recognition and measurement

Financial liabilities are initially recognised at fair value plus any transaction cost that are attributable to the acquisition of the financial liabilities except financial liabilities at fair value through profit or loss which are initially measured at fair value.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in following categories:

- Financial liabilities through profit or loss (FVTPL)
- Financial liabilities at amortised cost

Financial liabilities through FVTPL

A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss.

Financial liabilities at amortised cost

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and any gain or loss on derecognition are recognised in profit or loss.

Interest bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximates fair value due to the short maturity of these instruments.

Derecognition

A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

iii. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Property, Plant and Equipment**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located. Borrowing costs directly attributable to the acquisition or construction of those qualifying property, plant and equipment, which necessarily take a substantial period of time to get ready for their intended use, are capitalised.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate components of property, plant and equipment.

Assets retired from active use and held for disposal are stated at the lower of their net book value and net realisable value and shown under 'Other current assets'.

A fixed asset is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre - operative expenses and disclosed under Capital Work - in - Progress.

ii. Subsequent expenditure

Subsequent expenditure is capitalized only when it is probable that the future economic benefits associated with the expenditure will flow to the Company. Ongoing repairs and maintenance are expensed as incurred.

iv. Depreciation and amortisation

Depreciation and amortisation for the year is recognised in the Statement of Profit and Loss.

Depreciation on fixed assets are provided on straight line method over the useful lives of assets, at the rates and in the manner specified in Part C of Schedule II of the Act.

Freehold land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted as appropriate.

d) Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Estimated useful life of the Computer Software is 5 years.

e) Impairment**i. Impairment of financial instruments: financial assets**

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected

credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

ii. Impairment of non-financial assets

The Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest Company of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

f) Employee Benefits

i. Short-term employee benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

ii. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company makes specified monthly contributions towards Provident Fund. The Company's contribution is recognised as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

iii. Defined benefit plans

The Company pays gratuity to the employees whoever has completed five years of service with the Company at the time of resignation. The gratuity is paid @15 days salary for every completed year of service as per the Payment of Gratuity Act 1972.

The liability in respect of gratuity and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.

Amendment to Ind AS 19 - Plan Amendment, Curtailment or Settlement

The Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements requiring an entity to determine the current service costs and the net interest for the period after the remeasurement using the assumptions used for the remeasurement; and determine the net interest for the remaining period based on the remeasured net defined benefit liability or asset. The adoption of amendment to Ind AS 19 did not have any material impact on the standalone financial statements of the Company.

g) Provisions (other than for employee benefits)

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

h) Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

i) Leases

The Company is the lessor/lessee

The Company has entered into long term lease with the term of more than twelve months with low value leases. For these long term and low value leases, the Company recognises the lease receipts/ payments as an income/ expense in the Statement of Profit and Loss on a straight line basis over the term of lease.

Transition

Effective April 01, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the retrospective with cumulative effect method of initially applying the standard recognised at the date of initial application without any adjustment to opening balance of retained earnings. The Company did not have any material impact on the financial statements on application of the above standard.

j) Recognition of dividend income, interest income or expense

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established.

Interest income or expense is recognised using the effective interest method.

k) Income tax

Income tax expense comprises of current and deferred tax. Current tax and deferred tax is recognized in the statement of profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in OCI.

i. Current tax

The present value of obligation is determined based on the actuarial valuation using the Projected Unit Credit Method as on 31st March, 2020 which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The Company's gratuity expense is recognized under the head – "Employee Benefit Expense"

ii. Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

l) Borrowing costs

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

Where there is an unrealised exchange loss which is treated as an adjustment to interest and subsequently there is a realised or unrealised gain in respect of the settlement or translation of the same borrowing, the gain to the extent of the loss previously recognised as an adjustment is recognised as an adjustment to interest.

m) Earnings per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Employer's Contribution to Provident and Other Funds	412,980	445,220

Defined benefits - Gratuity

The Company's gratuity benefit scheme for its employees in India is a defined benefit plan (unfunded).

The Company provides for gratuity from employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/ termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of completed service.

The present value of obligation is determined based on the actuarial valuation using the Projected Unit Credit Method as on 31st March, 2020 which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The Company's gratuity expense is recognized under the head – "Employee Benefit Expense"

These defined benefit plans expose the Company to actuarial risks, such as interest rate risk, liquidity risk, salary escalation risk and regulatory risk.

Inherent risk

The plan is defined benefit in nature which is sponsored by the Company and hence it underwrites all the risk pertaining to the plan. In particular, this exposes the Company, to actuarial risk such as adverse salary growth, change in demographic experience, inadequate return on underlying plan assets. This may result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature, the plan is not subject to longevity risk.

The following tables analyze present value of defined benefit obligations, expense recognised in statement of Profit and Loss, actuarial assumptions and other information.

NOTES TO THE FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH 2020

29.2 Fair value measurement

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in forced or liquidation sale.

The Company has established the following fair value hierarchy that categorises the value into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: The hierarchy uses quoted (adjusted) prices in active markets for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on company specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The management assessed that trade receivables, cash and cash equivalent, other bank balances, trade payable and other financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

29.3 Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- (i) Credit risk
- (ii) Liquidity risk
- (iii) Market risk

Risk management framework

The Company's principal financial liabilities comprises of borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimise potential adverse effects of market risk on its financial performance. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The Company's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk.

(i) Credit risk

Credit risk is the risk of financial loss of the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company receivables from customers. Credit arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing/investing activities, including deposits with bank and financial guarantees. The Company has no significant concentration of credit risk with any counterparty. The carrying amount of financial assets represent the maximum credit risk exposure.

Trade receivable

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references.

Exposure to credit risks

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry. Details of concentration percentage of revenue generated from top customer and top five customers are stated below :

**NOTES TO THE FINANCIAL STATEMENT
FOR THE YEAR ENDED 31ST MARCH 2020**

Particulars	Year ended 31 March 2020		Year ended 31 March 2019	
	%	Amount (Rs)	%	Amount (Rs)
Revenue from top customer	50.88%	16,338,015	35.22%	15,828,597
Revenue from top five customers	91.98%	29,535,797	86.20%	38,741,623

Trade receivables are primarily unsecured and are derived from revenue earned from customers. Credit risk is managed through credit approvals, establishing credit limits and by continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. As per simplified approach, the Company makes provision of expected credit loss on trade receivables using a provision matrix to mitigate the risk of default payments and makes appropriate provisions at each reporting date whenever is for longer period and involves higher risk.

(ii) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's finance team is responsible for liquidity, funding as well as settlement management. In addition, Processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to liquidity risk
